

Juan Carlos Paredes is an American inventor with over 14 years clocked in self-funded full time research. His main focus is geometry and substrate physics, an area he is formalizing. Mr. Paredes holds an MBA in International Management from the Middlebury Institute of International Studies at Monterey and a BA (International Merit Scholar) from Wabash College. Before becoming a full time researcher, he produced two theatrically launched indie films, worked as a communications adviser, emerging markets content development coordinator and associate at Capital Group in Los Angeles and as an on-air creative coordinator and assistant at Sony Pictures Entertainment in Culver City. He was a finalist in the Academy of Television Arts and Science Internship and was a development intern at Out of the Blue Entertainment. Mr. Paredes is fluent in English, Spanish and Portuguese with past residence in Brazil, Chile and Colombia.
